

# Acita-Cal™

Foliar and Soil

**READ ENTIRE LABEL BEFORE USING THIS PRODUCT**

## GENERAL INFORMATION

Acita-Cal™ is a liquid calcium formulation designed for the prevention and correction of calcium deficiencies. Calcium is an essential part of cell wall and is required for new cell formation. Calcium is not mobile in the plant, therefore young, growing plant tissue is affected more seriously by any deficiency.

Acita-Cal™ should be used in conjunction with existing soil and foliar nutritional programs for all crops requiring calcium.

## COMPATIBILITY

Acita-Cal™ is compatible with some fertilizers and pesticides. A jar test for compatibility is recommended if the desired combination has not been previously used.

## CAUTION STATEMENT

Do not mix this product in combination with any Zinc products as this may result in fruit marking.

## MIXING INSTRUCTIONS

1. Add 1/3 of water to tank.
2. Add other additives, if any.
3. Add balance of water, agitate.
4. Add appropriate amount of Acita-Cal™ last.

Information on the contents and levels of metals in this product can be found on the internet at <http://www.aapfco.org/metals.htm>

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing. Do not contaminate feed and foodstuffs. Do not apply to any area not specified on label. Do not re-use empty container. Wash thoroughly with water and detergent, puncture, make unusable, dispose of in a safe place. Store out of sun in an area of moderate temperature. Will stain when applied to concrete.

### GUARANTEED ANALYSIS

Calcium (Ca).....10.0%  
(Derived from calcium acetate)

**Net Contents:** 5 gallons  
**Weight per gallon:** 10.67 lbs.

## DIRECTIONS FOR USE

**DO NOT APPLY to plants suffering from moisture stress or heat stress.**

Best results occur when applications thoroughly cover actively growing plants. Multiple applications throughout the growing season are recommended as a maintenance program.

**Foliar Application (Ground):** Use 1 to 2 quarts Acita-Cal™ per acre per application diluted in a minimum of 10 gallons of water.

**Foliar Application (Aerial):** Use 1/2 to 1 quart Acita-Cal™ per acre diluted in a minimum of 5 gallons of water. For best results, multiple applications throughout the growing season are recommended.

**Soil Application:** Use 4 to 8 quarts Acita-Cal™ per acre as a preplant or side-dress application.

## APPLICATION TIMING

**For Field and Vegetable Crops:** Apply desired rate throughout the growing season at regular intervals.

**For Tree and Vine Crops:** Start applications early in the growing season pre-bloom, then continue post-bloom throughout the season as required.

## CONDITION OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty or any other warranty of merchantability of fitness of a particular product expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
