

AGRO-LIG I TM

(Humic Acid)

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

AGRO-LIG ITM is a concentrate of leonardite shale from North Dakota deposits noted for purity and absence of dangerous heavy metals. Humic acid from leonardite shale has been shown to increase the availability and uptake of nitrogen, phosphorus, calcium, iron, and magnesium; increase the osmotic process; provide release of auxins and amino acids; and serves as quality substrates for microorganisms. Humic acid is found naturally in soils, but does not exist in all soils in quantities that will optimally support crops and trees. Adding humic acid to the soil is a positive, natural practice and promotes long term health of the soil.

DIRECTIONS FOR USE

SOIL APPLIED: Apply 40-100 lbs. of **AGRO-LIG ITM** per acre, preferably in the fall or early spring for humic acid release.

USE RATE DETERMINATION

Carefully read, understand, and follow label use rates and limitations. For proper application, determine the number of acres to be treated and the recommended label use rate.

AGRO-LIG ITM can be applied to all crops including: vegetable crops, row crops, field crops, feed crops, trees, vines, ornamentals, lawns, gardens, and landscaping.

GROUND: Ensure thorough coverage of ground. Consult accessory catalogues for specific information on proper equipment calibration.

AERIAL: Ensure a uniform deposit of material over the soil. Each aircraft should be prechecked for uniformity of the **AGRO-LIG ITM** material pattern, swath width, and volume.

POTTING SOILS: Mix 2 to 4 lbs. of **AGRO-LIG ITM** per cubic yard of potting mix.

AGRO-LIG ITM can be mixed with almost all dry fertilizers and dry nutrients including seeding, pre-plant and side-dress.

AGRO-LIG ITM is compatible with almost all fertilizers and nutrients. If unfamiliar with its use, be sure to check with Northwest Agricultural Products Inc. for compatibility or perform a jar test, mixing each product in the same ratios as to be field applied.

PRECAUTIONS

Statement of Practical Treatment: If in eyes, flush with water for at least 15 minutes. Do not rub eyes. Seek medical attention immediately. Product may cause eye irritation.

CONDITIONS OF SALE

Seller warrants that this product consists of the ingredients specified and is reasonable fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one other than the officer of Seller is authorized to make any warranty, guarantee, or direction concerning this product. Because the time, place, rate of application, and other conditions of use are beyond Seller's control. Seller's liability from handling, storage, and use of this product is limited to replacement of product.

Non Plant Food

Humic acid.....86%
(Derived from: Leonardite)

NET CONTENTS: 50 pounds

Bulk density: 45 lbs/per cubic foot

DISTRIBUTED BY:
NORTHWEST AG PRODUCTS, INC.
821 S. CHESTNUT AVE.
