

AGRO-LIG SLD™

Soluble, Low-Dust Humic Acid

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

AGRO-LIG SLD™ is a leonardite shale product that is naturally 75% humic acid, and is mined from North Dakota deposits noted for purity and absence of dangerous heavy metals. **AGRO-LIG SLD™** has been chemically treated so that it is **50% soluble** and produces low amounts of dust.

Humic acid is found naturally in soils, but does not exist in all soils in quantities that will optimally support crops and trees. Adding humic acid to the soil is a positive, natural practice and promotes long term health of the soil.

DIRECTIONS FOR USE

SOIL APPLIED: Apply 10 to 40 lbs. of **AGRO-LIG SLD™** per acre, preferably in the fall or early spring for humic acid release, or consult your local crop advisor.

USE RATE DETERMINATION

Carefully read, understand, and follow label use rates and limitations. For proper application, determine the number of acres to be treated and the recommended label use rate.

AGRO-LIG SLD™ can be applied to all crops including: vegetable crops, row crops, field crops, feed crops, trees, vines, ornamentals, lawns, gardens, and landscaping.

GROUND: Ensure thorough coverage of the ground. Consult accessory catalogues for specific information on proper equipment calibration.

AERIAL: Ensure a uniform deposit of material over the soil. Each aircraft should be prechecked for uniformity of the **AGRO-LIG SLD™** material pattern, swath width, and volume.

POTTING SOILS: Mix 2 to 4 lbs. of **AGRO-LIG SLD™** per cubic yard of potting mix.

AGRO-LIG SLD™ can be mixed with almost all dry fertilizers and dry nutrients including seeding, pre-plant, and side-dress.

AGRO-LIG SLD™ is compatible with almost all fertilizers and nutrients. If unfamiliar with its use, be sure to check with Northwest Ag Products for compatibility or perform a jar test, mixing each product in the same ratios as to be field applied.

Warning: This product contains boron, which may be injurious to certain crops. Contact your county agent or field consultant for specific information.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Statement of Practical Treatment: If in eyes, flush with water for at least 15 minutes. Do not rub eyes. Seek medical attention immediately. Product may cause eye irritation.

CONDITIONS OF SALE

Seller warrants that this product consists of the ingredients specified and is reasonable fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one other than the officer of Seller is authorized to make any warranty, guarantee, or direction concerning this product. Because the time, place, rate of application, and other conditions of use are beyond Seller's control, Seller's liability from handling, storage, and use of this product is limited to replacement of product.

GUARANTEED ANALYSIS

Calcium (Ca).....	3.0%
Magnesium (Mg).....	1.5%
Potassium (K ₂ O).....	3.0%
Sulfur (S).....	1.0%
Boron (B).....	0.03%
Iron (Fe).....	0.08%
Manganese (Mn).....	0.01%
Zinc (Zn).....	0.05%
(Derived from leonardite & potassium hydroxide.)	

ALSO CONTAINS NONPLANT FOOD INGREDIENTS

Humic Acid	75%
Dust suppressing agent derived from leonardite & humic acids and solubilizing agent	20%
Inert Ingredients.....	5%
Total	100%

NET CONTENTS: 50 pounds

Bulk density: 45 lbs. per cubic foot
