

A L P H A **αmax**

A FERTILIZER FOR CROPS WITH A HIGH DEMAND FOR PHOSPHORUS AND POTASSIUM

Alpha Max is a standard 4-in-1 liquid formulation of highly-available sources of phosphate, potassium, sulfur and magnesium. This unique product provides needed nutrients and promotes water penetration to enhance rapid growth.

Phosphorus enhances overall root proliferation. Potassium aids protein synthesis and cell division. Sulfur and magnesium help regulate nitrogen movement and enhances photosynthesis.

Alpha Max can be applied to potatoes, onions, corn, alfalfa, timothy, beans, peas, mint, berries and most other crops.

GUARANTEED ANALYSIS GRADE 1-5-2 + 1.20 (Mg) + 2.40 (S)

Nitrogen (N).....	1.00%
Phosphorus (P ₂ O ₅).....	5.00%
Potassium (K ₂ O).....	2.00%
Magnesium (Mg).....	1.20%
Sulfur (SO ₂).....	2.40%
Copper (Cu).....	0.05%
Manganese (Mn).....	0.05%
Zinc (Zn).....	0.26%

(Derived from Monoammonium Phosphate, Potassium Sulfate, Magnesium Sulfate, Copper Sulfate, Manganese Sulfate, Zinc Sulfate,)

PRECAUTIONARY STATEMENT

In all cases, it is recommended that a small scale test for compatibility be conducted before mixing a full batch.

DIRECTIONS FOR USE

Application Rate

Apply sequentially throughout the growing season in the irrigation water at 5 to 15 gallons per acre, based on crop nutrient demand.

CONDITION OF SALE:

Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal condition of use. Since weather, crop, soil and other conditions may vary, Northwest Agricultural Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions.

**CAUTION: KEEP OUT OF THE REACH OF CHILDREN
HARMFUL IF SWALLOWED
SHAKE WELL BEFORE USING**

Net Contents: 2.5 gallons
5 gallons
265 gallons
Weight per Gallon: 9.85 lbs.
