NUTRIPLEX™ COMPAC 400™ is a balanced liquid plant food containing the primary and secondary plant nutrients. The secondary plant nutrients are chelated with EDTA to provide rapid assimilation into the plant system.

NUTRIPLEX™ COMPAC 400™ liquid fertilizer was formulated to provide a fast method to boost plant growth during critical or high growth periods, to prevent damage due to weather, and to correct nutrient deficiencies.

NUTRIPLEX™ COMPAC 400™ is processed with agents aiding in spray tank wetting and dispersment, therefore it will disperse in water with minimum agitation.
