

ENVIROMAX®

A water dispersant

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

EnviroMax™ is an organic liquid soil treatment (an anionic polymer) that can be applied directly to the soil, and in all types of irrigation system (flood, furrow, low volume, sprinklers, center pivot).

EnviroMax™ can be used with most liquid fertilizers* and can be applied broadcast, band, side-dress, or in water-run applications.

EnviroMax™ disperses salts and enables irrigation water to move salts below the root zone. Nutrient leaching is reduced.

EnviroMax™ dissolves crusts, improves germination, and breaks the bond between root crops and soil. It improves water percolation, absorption, and retention of water in the soil. The result is that **EnviroMax™** allows improved nutrient uptake, thus increasing yield.

Directions for Application

EnviroMax™ achieves optimum results through multiple applications. Whenever possible, a pre-irrigation program is advised. **Do Not** apply with herbicides or soil applied pesticides, without jar testing (see your dealer).

Sprinkler or Center Pivot: Inject **EnviroMax™** into the system through a suction regulated line or metering injection pump. Always seek advice from your crop consultant for any safety device needed for public water systems.

Flood or Furrow: Meter **EnviroMax™** into irrigation water using a constant flow device to apply an even amount for the duration of the irrigation. **EnviroMax™** can also be diluted in water or mixed with fertilizer*.

Low Volume Irrigation: **EnviroMax™** should be metered into the irrigation system using an injection metering device.

Pasture: Inject **EnviroMax™** into the irrigation system through a suction regulated line or metering injection pump. Also may be applied with a ground rig. Dosage: 1.4 oz. per 1000 sq. ft. Repeat this program in 7 days.

* **EnviroMax™** should not be mixed with calcium nitrate based fertilizers.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin. Avoid contact with eyes, skin and clothing. Do not contaminate feed and foodstuffs. Do not apply to any area not specified on label. Do not re-use empty container. Wash thoroughly with water and detergent. Puncture, make un-usable, dispose of in a safe place. Store out of sun in an area of moderate temperature. Will stain when applied to concrete.

Non-Plant Food	
Active Ingredients	
Polymaleic anhydride anionic terpolymer.....	40.0%
Maleic anhydride sulfonated copolymer.....	4.0%
<u>Inert ingredients</u>	<u>56.0%</u>
Total.....	100%
Net Content: 5 gallons	<input type="checkbox"/>
55 gallons	<input type="checkbox"/>

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush with plenty of water for fifteen minutes, then get medical attention.

If on skin: Remove contaminated clothing. Wash skin with soap and water. Get medical attention if irritation persists.

If swallowed: First aid is not normally required. If digestive tract irritation develops, get medical attention.

If inhaled: Remove victim to fresh air; apply artificial respiration if necessary.

Applications Rates:

Mix ample water with **EnviroMax™** for good penetration of the soil. **Dosage:** 1 qt. - 1 gal per acre, in a minimum of 40 - 150 gals per acre. Can be applied in irrigation water or mixed with liquid fertilizers*.

Consult your fieldman for proper timing and rates.

Solubilizes Minerals:

EnviroMax™ holds large concentrations of calcium and bicarbonates in solution.

Benefits:

- Improves soil & crumb structure
- Improves aeration & soil tilth
- Reduces the leaching of nutrients
- Breaks through clay & hardpan layers
- Increases water penetration, drainage & availability
- Enhances root development
- Promotes even seed germination
- Dissolves mineral deposits

CONDITION OF SALE

Seller warrants that this product consists of the ingredients specified, but makes no other warranty or representation, expressed or implied. Seller's liability under this warranty is limited to replacement only. User or buyer assumes all risks of handling, possession or use whether or not in accordance with any suggestion, recommendation, or directions of seller, and accepts the product under these conditions.
