

## READ ENTIRE LABEL BEFORE USING THIS PRODUCT

### GENERAL INFORMATION

**FUL-VAC 3™** is derived from Agro-Lig I, which is a leonardite containing the highest available concentrations of both humic acids and fulvic acid.

### APPLICATION

**FUL-VAC 3™** can be applied to all crops, including vegetable crops, row crops, field crops, feed crops, trees, vines, ornamentals, lawn, gardens, and landscaping.

**FUL-VAC 3™** can be mixed with almost all liquid fertilizers and liquid nutrients. **FUL-VAC 3™** can also be applied with non-selective contact herbicides, systemic insecticides, defoliants, and most fungicides.

**FUL-VAC 3™** can be applied with all transplant solutions, dips, and watering solutions. It can be applied to all soil types and used at all pH ranges.

### CHEMIGATION

Washington state law requires that EPA-approved safety devices be in use whenever this product is used in any irrigation system.

Irrigation equipment must have antisiphon devices and automatic shutoff valves to prevent contamination of water sources.

Have injector pump electrical connections coupled with the system's shutdown controls.

Do not chemigate if wind speed exceeds 10 mph.

### CAUTION:

#### KEEP OUT OF REACH OF CHILDREN

Product may cause eye irritation. If in eyes flush with water for at least 15 minutes. Do not rub eyes. Seek medical attention immediately.

#### CONDITIONS OF SALE

NOTICE: Follow directions carefully. Timing and method of application, weather and crop condition, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith. Northwest Agricultural Products, Inc., does not make nor does it authorize any agent or representative to make any warranty, guarantee, or representation, expressed or implied, concerning this material or the use thereof, except in conformity with the statements on the label.

**INGREDIENTS:** Fulvic fraction of Humic Acids

NOT A PLANT FOOD PRODUCT

Net Contents: 5 gallons  
Weight per Gallon: 8.728 lbs. @ 68° F  
Net Weight: 43 lbs.

This product is manufactured by:  
**Northwest Agricultural Products, Inc.**

### USE RATE DETERMINATION

Carefully read, understand, and follow label use rates and limitations.

**FOLIAR APPLICATION:** Apply 1 quart to 2 quarts of **FUL-VAC 3™** per acre. It can be combined with all foliar feeds. If sprayed without mixing with other nutrients, dilute in at least 10 gallons of water.

**HERBICIDE APPLICATION:** Apply 1 quart to 2 quarts of **FUL-VAC 3™** per acre. **FUL-VAC 3™** can be mixed with non-selective contact herbicides. Not recommended with pre-emergence herbicides. **DO NOT MIX WITH SELECTIVE HERBICIDES.**

**DEFOLIANT APPLICATION:** Mix 1 quart to 2 quarts of **FUL-VAC 3™** per acre with all defoliants.

**TRANSPLANTING OR CUTTING:** Mix ½ to 1 gallon of **FUL-VAC 3™** per gallon of solution.

**FUL-VAC 3™** is compatible with almost all fertilizers, nutrients, pesticides, fungicides, and defoliants. If unfamiliar with its use, be sure to check with Northwest Agricultural Products, Inc., for compatibility, or perform a jar test mixing each product in the same ratios as to be field applied.
