

5-18-2 Foliar™

Foliar

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

5-18-2 Foliar™ is formulated as a soluble concentrate that requires a minimum 1 to 10 dilution with water for all applications.

5-18-2 Foliar™ is a fluid nutrient compound designed to prevent nutrient deficiencies in plants

5-18-2 Foliar™ is a valuable supplement to soil applied nutrients and is particularly beneficial under conditions where soil nutrients are not readily available.

5-18-2 Foliar™ will assure adequate nutrients at periods of fruit or flower development.

5-18-2 Foliar™ has a pH of 1 to 1.5. The use of buffering agents may result in crop damage.

5-18-2 Foliar™ will disperse in water with little agitation. Many pesticides can be applied with **5-18-2 Foliar™**.

Follow this mixing procedure:

1. Water
2. **5-18-2 Foliar™**
3. Pesticide

Avoid use with basic copper fungicides.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing. Do not contaminate feed and foodstuffs. Do not apply to any area not specified on label. Do not re-use empty container. Wash thoroughly with water and detergent, puncture, make unusable, dispose of in a safe place. Store out of sun in an area of moderate temperature. Will stain when applied to concrete.

DIRECTIONS FOR USE

Vegetables: Apply 2 to 4 quarts per acre at weekly intervals, starting when crops are a few inches high. Continue up to 2 weeks before harvest. Dilute in a minimum of 5 gallons per acre for aerial application, 20 gallons per acre for ground application.

Tree Fruit, Nuts: Apply 2 to 4 quarts per acre 5-6 times annually, beginning with delayed dormant spray.

Citrus: Apply 6 to 8 quarts per acre, four times annually with first application at pre-bloom.

Field Crops: Apply 2 quarts per acre when crops reach 4 leaf stage.

Reapply at same rate every 14 days thereafter until crop matures. Use enough water for thorough coverage.

WARNING:

This product is only to be used on soils which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants).

SHAKE OR STIR WELL BEFORE USING

CONDITION OF SALE

Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use.
