

DIRECTIONS FOR USE

Mixing Sequence: 1. Water 2. Performance Plus™ Boron 3. Other ag chemicals.

Application Rate: Apply at the rate of 3qts to 2 gallons per acre to correct deficiencies of listed nutrients.

Foliar Application: Apply Performance Plus™ Boron with 20 gallons of water per acre through conventional sprayers. When using low volume equipment such as air sprayers, 5 to 10 gallons of water per acre are usually sufficient. This product can be used in combination with other chelate/citrate-based products and/or many pesticides. Apply in slow drying conditions. Do not apply if air temperature exceeds 90°F since damage to crop may occur.

Soil Application with Other Liquid Fertilizer: Performance Plus™ Boron may be combined with other liquid fertilizers. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application.

GENERAL INFORMATION

Performance Plus™ Boron can be applied to hops, ornamentals, turf, pasture, range grasses, and most other crops.

Performance Plus™ Boron is a balanced liquid plant food containing primary and micronutrient. The micronutrient is complexed with amino acids to provide rapid assimilation into the plant system.

Performance Plus™ Boron liquid fertilizer was formulated to provide a fast method to boost plant growth during critical or high growth periods, to prevent damage due to weather, and to correct nutrient deficiencies.

Performance Plus™ Boron is processed with agents aiding in spray tank wetting and dispersment. Therefore it will disperse in water with minimum agitation.

GUARANTEED ANALYSIS

6-23-5

GRADE 6-23-5

Compatibility

Do not mix with 2, 4-D amine products as a compatibility problem may occur.

PRECAUTIONARY STATEMENTS

Always conduct a small scale jar test for compatibility before mixing a full batch.

Net Contents:

- 5 gallons • Shuttle

Weight per gallon: 11.57 lbs.

CONDITION OF SALE

Seller warrants that the product conforms to the chemical description and its reasonable fit for the purpose stated on this label when used in accordance with directions under normal condition of use. Since weather, crop, soil, and other conditions may vary, Northwest Ag Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product.
