Plus Charge™ 8-32-5

Plus Micronutrients

Foliar
Liquid Plant Food

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

PLUS CHARGE™ can be applied to most vegetable crops, row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, pasture, range grasses, and most other crops.

PLUS CHARGE™ is a liquid plant food containing PRIMARY and SECONDARY plant nutrients. The secondary plant nutrients are chelated with EDTA to provide a quick plant response by easing their entry into the plant.

PLUS CHARGE™ liquid fertilizer is formulated to provide a fast method to boost plant growth during critical or high growth periods, to reduce damage due to weather, and to correct listed nutrient deficiencies.

DIRECTIONS FOR USE

Pour recommended amount of **PLUS CHARGE™** into partly filled spray tank. Add balance of water to fill tank. Keep agitated while filling and spraying. Flush all spray equipment after use.

In all cases, it is recommended that a small scale test for compatibility be conducted before mixing a full batch.

APPLICATION RATES

Agricultural Crops

Field & Vegetable Crops: Apply 2 to 3 quarts per acre at 2 week or longer intervals after thinning when plants are well established. Apply early in the growing season.

Barley, Wheat, & Other Small Grains: Apply 2 to 3 quarts per acre prior to or shortly after tillering. Reapply at the same rate just prior to heading to help fill out kernels.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.wa.gov/agr/>

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat, or skin. Avoid contact with eyes, skin, and clothing. Do not contaminate feed and foodstuffs. Do not apply to any area not specified on label. Do not re-use empty container. Wash thoroughly with water and detergent, puncture, make unusable, dispose of in a safe place. Store out of sun in an area of moderate temperature. Will stain when applied to concrete.

Almonds, Apricots, Cherries, Plums, Prunes, Peaches, Nectarines, Hops, Filberts, & Hazelnuts: Apply at the rate of 1 gallon per acre in sufficient water to obtain thorough coverage anytime after bud swell to popcorn stage, prior to bloom. Repeat the application within 2 weeks after petal fall. Older trees may require another application of 3 to 4 quarts per acre 4 to 6 weeks later.

Ornamentals

Injection Systems: Apply at a maximum concentration of 50 to 100 ppm per month to the crops listed below.

Shrubs & Vines: Apply 2 quarts per 100 gallons of water and spray to point of run-off. For smaller quantities use 1 oz per 1 gallon of water.

Annual & Perennial Flowers: Apply 1/2 pint per 25 gallons of water and spray to point of run-off. For smaller quantities use 2 oz per 3 gallons of water.

Trees & Large Woody Shrubs: Apply 1 gallon per 100 gallons of water and spray to point of run-off. For smaller quantities use 1 1/4 oz per 1 gallon of water.

Turf: Apply 1 pint per 1,000 sq ft with sufficient water for good coverage. Spray to the point of run-off. Repeat every 3-4 weeks until grass goes into dormancy.

CONDITION OF SALE

Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one other than the officer of seller is authorized to make any warranty, guarantee, or direction concerning this product. Because the time, place, rate of application, and other conditions of use are beyond seller's control, seller's liability from handling, storage, and use of this product is limited to replacement of product or refund of purchase price.
