

Performance 7-27-6™

**Performance 7-27-6™,
A Complexed Macro-Micronutrient Foliar Package
Containing Amino Acid Chelated Micronutrients**

P.O. Box 3453 -- Pasco WA 99302

509 / 547-8234

**CAUTION: KEEP OUT OF REACH OF CHILDREN
HARMFUL IF SWALLOWED**

DIRECTIONS FOR USE

Mixing Sequence: 1. Water 2. Performance 7-27-6™ 3. Other ag chemicals.

Application Rate: Apply at the rate of 3qts to 2 gallons per acre to correct deficiencies of listed nutrients.

Foliar Application: Apply Performance 7-27-6™ with 20 gallons of water per acre through conventional sprayers. When using low volume equipment such as air sprayers, 5 to 10 gallons of water per acre are usually sufficient. This product can be used in combination with other chelate/citrate-based products and/or many pesticides. Apply in slow drying conditions. Do not apply if air temperature exceeds 90°F since damage to crop may occur.

Soil Application with Other Liquid Fertilizer: Performance 7-27-6™ may be combined with other liquid fertilizers. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application.

GENERAL INFORMATION

Performance 7-27-6™ can be applied to hops, ornamentals, turf, pasture, range grasses, and most other crops.

Performance 7-27-6™ is a balanced liquid plant food containing the primary and secondary plant nutrients. The secondary plant nutrients are complexed with amino acids to provide rapid assimilation into the plant system.

Performance 7-27-6™ liquid fertilizer was formulated to provide a fast method to boost plant growth during critical or high growth periods, to prevent damage due to weather, and to correct nutrient deficiencies.

Performance 7-27-6™ is processed with agents aiding in spray tank wetting and dispersment. Therefore it will disperse in water with minimum agitation.

GUARANTEED ANALYSIS

Primary plant foods (% by weight)

Total Nitrogen (N)	7.0%
Ammoniacal nitrogen	4.6%
Urea Nitrogen	2.4%
Available Phosphoric Acid (P ₂ O ₅)	27.0%
Soluble Potash (K ₂ O)	6.0%

(Derived from Tetrapotassium Pyrophosphate, Phosphorous Acid, Mono Potassium Phosphate, Mono Ammonium Phosphate, Phosphoric Acid, Urea, & Potassium Hydroxide)

Secondary plant foods (% by weight)

Boron (B)	0.02%
Copper (Cu)	0.05%
Iron (Fe)	0.05%
Manganese (Mn)	0.05%
Zinc (Zn)	0.05%

(Derived from Boric Acid, Amino Acid Chelates of Cu, Fe, Mn, and Zn, Cu EDTA, Fe EDTA, Mn EDTA, Zn EDTA).

Non-Plant Food (% by weight)

Sarponins	0.01%
Fulvic Acids(Humic Acids)	0.16%

Information regarding the contents and levels of metals in this product is available on the internet:

GRADE 7-27-6

Compatibility

Do not mix with 2, 4-D amine products as a compatibility problem may occur.

PRECAUTIONARY STATEMENTS

Always conduct a small scale jar test for compatibility before mixing a full batch.

Net Contents:

- 5 gallons • Shuttle

Weight per gallon: 11.65 lbs.

CONDITION OF SALE

Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal condition of use. Since weather, crop, soil, and other conditions may vary, Northwest Ag Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether of not in accordance with directions or suggestions.
