

GENERAL INFORMATION

STICK-IT Organic is a proprietary blend of terpene polymers and emulsifiers designed for use with pesticides and soluble fertilizers. This unique chemistry causes **STICK-IT Organic** to form an elastic film that keeps the enclosed chemicals in contact with the plant surface. This film reduces pesticide and nutrient loss and often enhances activity of those chemicals. In addition, the **STICK-IT Organic** film improves retention of pesticides and foliar feeds on plant surfaces even during rain or sprinkler irrigation.

STICK-IT Organic will not foam, freeze, or clog nozzles, and may be applied by aircraft or ground sprayer.

STICK-IT Organic requires at least one hour of sunlight for the film to set. Therefore it must be applied during daylight, and at least one hour before irrigation or anticipated rain.

STICK-IT Organic is not for aquatic use.

SHAKE WELL BEFORE USING.

COMPATIBILITY

STICK-IT Organic is compatible with most agricultural chemicals. However, a jar test is recommended before mixing it with other chemicals in large quantities.

CONDITION OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil, and other conditions may vary, Northwest Ag Products, Inc. and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling, whether or not in accordance with directions or suggestions to the extent consistent with applicable law.

STICK-IT
ORGANIC™

AN EXTENDER-STICKER

INGREDIENTS

Principal Functioning Agents:
 Pinene Polymers.....81.8%
Constituents Ineffective As Spray Adjuvants.18.2%
 TOTAL.....100%

Net contents: 2.5 gallons

(509) 547-8234

P.O. Box 3453 • Pasco WA 99301

DIRECTIONS FOR USE

To improve the activity and efficiency of pesticidal sprays and soluble fertilizers apply 4 to 16 ounces of **STICK-IT Organic** per acre.

To improve the absorption and retention of foliar fertilizers, apply 4 ounces of **STICK-IT Organic** per acre.

For use in air blast sprayers or hydraulic gun sprayers, apply 4 to 8 ounces of **STICK-IT Organic** per 100 gallons of water.

Note: Do not apply to food crops within 30 days of harvest except as follows: **STICK-IT Organic** can be used with copper fungicides, Bacillus thuringiensis products and other tolerance exempt pesticide on food crops up to harvest. Caution: Use of **STICK-IT Organic** with these exceptions may result in visible residues on crops which may render the crops unsaleable.

MIXING INSTRUCTIONS

Fill the spray tank half full of water, then add other desired components to the tank while agitating the mixture. Premix **STICK-IT Organic** with more water and add while the tank continues to fill. Agitate mixture continuously while the tank is filling.

Use clean water to rinse spray equipment immediately after spraying. Though some residue may remain in the tank, it will help prevent rusting and corrosion and will not clog nozzles next time the sprayer is used.

STORAGE AND DISPOSAL

Store in original container only. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may be disposed of in a sanitary landfill.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. HARMFUL IF SWALLOWED. NOT A PLANT FOOD PRODUCT.

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for further treatment advice.

IF ON SKIN:

- Take off contaminated clothing.
- Rinse skin with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 9-1-1 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact Infotrac at 1-800-535-5053 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

Hazardous to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Wear long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

Do not apply this product to non-target surfaces and do not allow spray to drift. Permanent damage may occur on porous surfaces. On non-porous surfaces, remove spray immediately with soap and water while the spray deposit is still wet. Dried deposits on painted car surfaces can be removed using standard tar remover products designed for use on cars.

Do not apply when the weather is hot, windy or wet. Apply only when you are certain that the application will give you the desired result.

Do not allow spray drift or rinse water from spray tank to contaminate surface waters.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if the product gets inside. Then, wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN. HARMFUL IF SWALLOWED. NOT A PLANT FOOD PRODUCT.
